

Kalaivani S

Software Developer

kalaivanibadhri@gmail.com | +91 8925700309 | [LinkedIn](#) | [Portfolio-Kalai](#)

Professional Summary

Software Developer with hands-on experience in Angular, React.js, TypeScript, JavaScript, MongoDB, and REST API development across multiple live production applications. Experienced in building scalable enterprise applications with role-based access control (RBAC), reusable components, dynamic JSON-driven UI rendering, API integration, and database-driven CRUD operations. Familiar with MongoDB Atlas, database design, and full-stack development using the MERN stack.

Technical Skills

- **Front-End:** Angular, React.js, TypeScript, JavaScript (ES6+), RxJS, HTML5, CSS3, JSX, Bootstrap, Tailwind CSS, Angular CLI, React Hooks, Redux (State Management), Responsive Web Design, Angular Universal (SSR)
- **Back-End:** Node.js, Express.js, RESTful APIs, NoSQL, MongoDB, MongoDB Atlas, MongoDB Compass, Studio 3T, NoSQL, CRUD Operations, Database Schema Design, Aggregation Pipeline (Basic), SQL, MySQL(basics), Python, C#
- **DevOps & Deployment :** Render, Netlify, Vercel, GitHub Pages, CI/CD (basic)
- **UI/UX Tools:** Figma, Canva, Wireframing, Prototyping
- **Testing:** Manual Testing, API Testing, Jira, Postman, Playwright (Automation)
- **Version Control & Tools:** Git, GitHub, GitHub Actions, VS Code, Vite, npm, MS Office
- **Core Concepts:** Dynamic rendering, JSON-based UI Development, API Integration, Component-Based Architecture, CRUD Operations, Role-Based Access control (RBAC), Authentication & Authorization , Reusable Components, State Management, Bug Fixing & Debugging, Agile/Scrum Methodology,

Professional Experience

ECBEE Innovations Pvt Ltd |

Jan 2026 – Present

Software Developer Intern → Software Developer Trainee

Technologies Used: Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, REST APIs, MongoDB

Responsibilities:

- Worked on 5+ live production applications using Angular and frontend technologies.
- Developed responsive and scalable user interfaces for enterprise and client-based applications.
- Implemented **dynamic product listing pages** where UI rendering, styles, images, and content were fully generated from backend JSON responses. Built reusable Angular components and implemented dynamic data binding using TypeScript.
- Integrated REST APIs and handled frontend-backend communication for real-time application updates.
- Worked on role-based access control systems where application access varied for staff, managers, employees, customers, and administrators. Fixed production-level bugs and improved application performance and UI responsiveness.
- Collaborated with developers and testing teams in Agile-based development workflows.
- Worked on admin dashboards, super admin panels, and enterprise management systems.
- Worked with MongoDB for storing and retrieving application data through REST APIs.

Live Projects:

- **ICVTE Admin Panel**
 - Developed a production-grade Learning Management System (LMS) administration dashboard for managing courses, students, enrollments, staff, payments, and approval workflows.
 - Implemented JWT authentication with access/refresh tokens, automatic token refresh using HTTP interceptors, route guards, and role-based access control (RBAC).
 - Built modules for Course Management, Student Management, Creator Management, Enquiry Management, and Operations Management.
 - Integrated REST APIs through a centralized ApiService with timeout, retry logic, and global error handling.
 - Configured Angular Universal (SSR) for SEO-friendly rendering and improved application performance.
 - Developed PDF report generation using jsPDF and implemented multipart image upload functionality.
- **Guestezee Hotel Admin and Guestezee Hotel Super Admin**
 - Developed frontend modules for hotel enrollment, booking management, operational task tracking, and reporting dashboards. Implemented reusable Angular components, dynamic forms, RBAC workflows, and API integrations.
 - Worked on frontend enhancements, UI optimization, and production bug fixing for enterprise hospitality workflows.
 - Hotel Super Admin - Developed responsive Angular-based super admin dashboards for hotel onboarding, subscription management, analytics, and operational workflows.
- **AMS (Attendance Management System)**
 - Worked on an Angular 16 SSR-based admin management system with role-based access control (RBAC).
 - Developed modules for employee management, leave management, shift management, visitor tracking, and overtime workflows. Implemented authentication guards, HTTP interceptors, API integration, and reusable shared UI components.

- **eProof**
 - Worked on an Angular-based digital exam evaluation platform with SSR support and reporting workflows.
 - Developed responsive UI components, workflow visualization screens, and analytics-related frontend modules using Angular, TypeScript, Bootstrap, and RxJS.
 - Contributed to frontend enhancements for reporting dashboards and evaluation management workflows.
- **House of Talent, Vigha** – Bug fixing and maintenance support

Letzbizz | Developer Intern

Jan 2025 – May 2025

- Gained hands-on experience in Full Stack Web Development using React.js, Node.js, Express.js, and MongoDB.
- Developed responsive frontend interfaces and reusable UI components using React.js, JavaScript, HTML5, CSS3 & Tailwind.
- Developed REST APIs using Express.js and performed CRUD operations with MongoDB.
- Designed collections, managed data using MongoDB Compass, and integrated MongoDB Atlas for cloud database deployment.
- Performed debugging, code optimization, cross-browser testing, and version control using Git and GitHub.

TEMS Tech Solutions | Software Development Intern

Aug 2024 – Nov 2024

- Assisted in software development using C# and SQL. Performed debugging, optimization, and technical documentation.

VeriTech Software Services | Web Development Intern

Mar 2024 – Jun 2024

- Developed responsive web pages using **HTML, CSS, JavaScript**.
- Created dynamic forms (login, registration, survey) with **MySQL database integration**.
- Collaborated on UI/UX improvements using **Figma and Bootstrap**.

Projects

Student Data Management System | Link

Technologies: MongoDB, Express.js, React.js, Node.js, Postman, MongoDB Compass, REST API, Bootstrap

- Developed a full-stack MERN web application to manage student records (Name, Last Name, Email ID).
- Implemented CRUD operations (Create, Read, Update, Delete) using RESTful APIs and MongoDB as a database.
- Used Postman for API testing and MongoDB Compass for local storage management during development and Connected the application to MongoDB Atlas for cloud database management.
- Designed a responsive UI with Bootstrap and React components for a seamless user experience.
- Used Mongoose for schema creation, validation, and database interactions.

Weather App | Link

Technologies: React.js, JavaScript (ES6), CSS3, Flexbox, Media Queries, API, React Hooks (useState, useEffect, useRef), Vite

- Developed a responsive weather application that fetches real-time weather data using the OpenWeatherMap API.
- Implemented search functionality allowing users to view temperature, humidity, wind speed, and weather conditions by city name. Displayed dynamic weather icons based on the weather (sunny, rainy, etc.).
- Used JavaScript to handle API integration, data parsing, and DOM updates for a seamless user experience.

Education

Bachelor of Engineering (ECE)

CGPA: 9.03 | 2023

AAA College of Engineering and Technology, Sivakasi

Certifications

- Web Development – [IBM](#)
- Responsive Web Design – [freeCodeCamp](#)
- [Google](#) UX Design Professional Certificate – [Coursera](#)
- Foundational C# – [freeCodeCamp](#)
- Python Programming – Guvi Geek Networks, IITM Research Park
- Front-End Development (HTML) – Great Learning Academy

Achievements

- Ranked **1st/2nd/3rd** in the Department (2019-2023).
- Recognized as “**Most Outstanding Student**” (2019-2023 batch).
- Led a **District-level Volleyball Team** for 6 years.
- Presented research papers at **Two International Conferences**.

Additional Information

Languages: Tamil (Native), English

Interests: Chess, Volleyball, Photoshop Editing, Learning New Technologies, Full Stack Development
